Germany

Wöhler HD-Video-Endoscopes

Nothing remains hidden

With a small, light-weight Wöhler VE endoscope nothing remains hidden from you. Even through the smallest openings you get the full view in every cavity. A Wöhler endoscope protects you from unpleasant surprises through fast & high-quality inspection.

Three endoscopes with a wide range of applications at a low price, matched with a comprehensive range of waterproof HD probes, from the miniature probe Ø 3,9 mm to the 3 m long probe Ø 25 mm for the examination of waste water pipes. By simply pressing a button, the viewing direction of the probes (Ø 5,5 mm and Ø 25 mm) can even be turned 90° to the side. And the best thing is: all probes of the Wöhler VE 320 and VE 400 endoscopes are compatible. The choice of the right endoscope depends on your preferred working method. When inspecting with the Wöhler VE 200 you use your tablet or smartphone as a screen.

The endoscope transmits the image data via WLAN. Of course you can save the images and videos on your end device and transmit them from there. If you prefer an endoscope with its own screen, the Wöhler VE 320 or VE 400 is exactly what you need. Here, pictures and videos are shown directly on the large colour display. The screen can even be rotated at the touch of a button. The image files are stored on the SD memory card, in HD-ready quality on the Wöhler VE 320 and even in HD on the Wöhler VE 400.

		HD	HD_{READY}			
VIDEO FUNCTION	PHOTO FUNCTION	IMAGE QUALITY	IMAGE QUALITY	WIRELESS-LAN TRANSMISSION	SD	USB
		Wöhler VE 200/ VE 400	Wöhler VE 320	Wöhler VE 200	Wöhler VE 320/ VE 400	Wöhler VE 320/ VE 400

- ▶ Inspection of inaccessible cavities through smallest openings from Ø 6 mm
- ▶ Wide range of probes up to 3 m length for many applications
- ▶ HD quality or HD-ready quality image
- ▶ Lightweight and practical design

Large 5" screen

Moisture under the bathtub? With the Wöhler VE 400 the cause is quickly found.

Hands free for working

With the magnetic holder you can securely attach the Wöhler VE 400 to any magnetic surface. This leaves your hands free for working.

View through smallest openings

Just a Ø 6 mm opening in a tile cross is sufficient to view the installation behind the wall (in the picture Wöhler VE 320).

Image rotation at the push of a button

The display can be quickly rotated by 180° for easier navigation. The flexible probe easily passes bends.

Choose your own display

The small Wöhler VE 200 fits in every pocket. It transmits the image and video files via WLAN to your mobile device, if desired also simultaneously to the tablet and the smartphone.

Manage pictures on your smartphone

The pictures of the Wöhler VE 200 are also displayed in high quality on the smartphone. From there they can be conveniently sent to your customer, office etc.

✂ Application

HD inspection of:

- ▶ inaccessible cavities through smallest openings from Ø 6 mm
- ▶ Pre-wall installations, outlets, drain pipes, fireplaces, combustion chambers, fittings
- ▶ Inspection openings and fire dampers

⚙ Functionality

Wöhler VE 320 / 400:

- ▶ Large colour monitor
- ▶ Image rotation
- ▶ LED supplementary light on the endoscope to illuminate the inspection area

Wöhler VE 200:

- ▶ Transmission of image and video data via WLAN to Smartphone, Laptop, Tablet, PC
- ▶ Can be used simultaneously on several devices
- ▶ LED supplementary light on the endoscope to illuminate the inspection area

📁 Data management

Wöhler VE 320 / 400:

- ▶ Saving image and video files on the internal micro SD memory card
- ▶ Transmission of image and video files to PC via SD card or USB cable

Wöhler VE 200:

- ▶ Saving image and video files on the mobile device
- ▶ Direct sending of pictures and videos via the „share function“ of the smartphone / tablet
